Environmental Policy

The organisation policy for the environment is that its activities shall not impart harm or damage to the environment by way or using materials or energy that may have been produced in a wasteful manner. Neither shall the organisation disposing of waste materials in a manner that would cause harm to the environment.

To this end the organisations actions in observing the policy will ensure that it:

- is relevant to its activities, products and services, and their environmental effects.
- is understood, implemented and maintained at all levels in the organisation.
- is publicly available.
- Ensures a commitment to continual improvement of environmental performance.
- Provides for the setting and publication of environmental objectives.
