

Equal Opportunities

The Disabled Person (employment) Acts 1944 and 1958

The company recognises these Acts and in accordance with them aims to ensure that no disabled applicants will be barred from selection on the grounds of disability unless arrangements for working with, or around, disability cannot be reasonably made.

The company aims to provide/adapt premises and equipment, where reasonable, in order to meet this objective. Training is given to all Managers in Disability Awareness and the review of the policies is regularly undertaken to improve and extend employment for people with disabilities.
